- Programming Tools
- Parallel Coding
- Compute Canada Cloud
- Machine Learning
- Scientific Visualization
- MATLAB

MORE INFORMATION
https://wgtm21.netlify.app | training@westgrid.ca

WHO SHOULD PARTICIPATE:

Researchers and individuals interested in building their knowledge and skills in HPC.

All research disciplines and skill levels are welcome.

Please note that registrants must be associated with a Canadian Academic Institution: you will be required to provide your institutional email address upon registration.

DETAILS:

Course format will be a combination of several interactive Zoom sessions and pre-recorded reading and video materials in-between the Zoom sessions. Course materials will be shared shortly before the start of the course.

BROUGHT TO YOU BY:
